Reports

All you need is to be connected to the internet and by pressing the **NEW Backup button**, your database is backed up onto a secure server in a Disaster Recovery center.

In the event that you lose your database through corruption, machine theft etc, your last backup can be restored and you will be back up and running!!!

Have you ever thought how it would effect your business if you lost your eZee database ? ?

This is a subscription service at only R120 per month to protect your database and therefore your business.

Contact us to apply for the eZee backup service or for more information on 012 755-6809 or mail us at [info@ezee.co.za](mailto:info@ezee.co.za)
